UNFOLD EFFICIENCY: BENEFIT FROM SAFE, FAST AND ECONOMIC PROCESSES.

RONDO'S EXPERTISE: EVERYTHING AROUND THE PERFECT FOLDING BOX.

Packaging and marketing pharma products efficiently: one aspect of this is intelligent secondary packaging. But this realises its full potential only if all the upstream processes are running efficiently. Rondo's expertise therefore covers the entire spectrum of pharma packaging. Development and design combine functionality and marketing aspects. GMP-compliant production of folding boxes ensures high

quality and cost-effectiveness. And intelligent supply chain management ensures smooth operating processes. This expertise is based on our many years of experience in the pharmaceutical industry and an understanding of our customers' processes – to which we have adapted our own processes.
