

Patient Compliance

Separable Compliance Card

Rondo's folding box with multi-layer information card helps patients to comply with their doctor's prescription. The information card is detachable offering the possibility to be carried along outside of the patient's home. The foldable card offers a lot of space for marketing communication and additional product information.

Advantages

- Enhanced patient compliance through separable compliance card(s).
- Suitable for any blister size.
- Useable for side-loading or hand-filling applications.
- A lot of space available for marketing communication.
